Portfolio

EDUCATION

Indian Institute of Technology, Guwahati

Bachelor of Design (B.Des)

July 2018 - June 2022

Guwahati, Assam, India

EXPERIENCE

Zomato

May 2025 - Present

Motion Designer, Blinkit

Gurugram, India

- Drove a 2x increase in homepage CTR by designing and shipping Bistro's Lottie animation system (80+ animations in After Effects) – establishing the motion design system from scratch as the product's founding motion designer.
- Built motion design guidelines, reusable templates, and animation systems to ensure consistency across teams and campaigns.
- Led motion for high-stakes campaigns (IPL, festive, regional) producing all Lottie assets with less than 16ms frame budget and zero performance regressions shipped to production.
- Led cross-functional collaboration between design, marketing, and engineering teams to execute high-quality in-app merchandising experiences.

Humanx

Feb 2025 - May 2025

Motion Designer (Contract engagement — 3 specific project deliverables)

Mumbai, India

- Produced the launch motion package for NPCI-BHIM (India's national payments platform) - brand film and an animated product explainer.
- Improved perceived checkout speed for Amazon Fresh by designing Lottie animations in After Effects that visualised real-time savings.
- Created AR motion content for Movv, combining animation with spatial experiences.

Cloudworx Studios

Apr 2023 - Sept 2024

3D Generalist

Bengaluru, India

- Led a team of 5 to build 6 interactive 3D website templates for Super3D.ai, from ideation to production.
- Built a 3D cricket stadium for StanceBeam's DRS system used during MPPL broadcasts (10M+ viewers). [Demo](#)
- Developed virtual simulation environments for government and enterprise digital twin projects.

Freelance

Sept 2022 - Present

Motion Designer

Bengaluru, India

- Managed end-to-end client projects including creative direction, production, and feedback cycles.
- Delivered anamorphic and CGI ads for 5+ brands across Instagram and YouTube.

Urban Company

Jun 2022 - Oct 2022

Graphic Designer (Contract role post-graduation - transitioned to 3D → motion specialisation)

Bengaluru, India

- Owned graphic design for the partner app. Delivered 500+ product images and 20+ promotional banners.
- Designed Spotlights section visuals driving discovery in the consumer app.

PROJECTS

LottiePop | Swift, SwiftUI, React

- Built a macOS Quick Look extension using SwiftUI and React to preview .lottie/.JSON files in Finder without opening external tools.
- Shipped independently in 2 days using Claude Code.

Streaks | After Effects, Lottie

- Built Lottie-based gamification animations for Bistro's rewards flow.
- Collaborated with product and engineering to deliver performant animations without impacting app latency.

SKILLS

Motion & Animation: UI motion, motion graphics, Lottie animations, micro-interactions, 2D/3D animation, storyboarding

Tools: After Effects, LottieFiles, Rive, Figma, Blender, Premiere Pro, DaVinci Resolve, Illustrator

AI & Automation: Claude Code, AI-assisted 3D workflows in Blender, AI animation tools in LottieFiles
